What they consisted of back then, was in some cases two station areas come together, and a group of people produced a thirty or forty minute variety show, of music, song, dance, drama and comedy, and competed against other station areas, going down to a grand final, with packed halls ever night, providing wonderful entertainment.

The giving of sight in today's gospel, might also be described as the confirmation of faith. Most of us have the faith to turn to Christ when we are in need, but our faith has to survive the negative voices around us, that would make out that he is indifferent to our needs. We see him today as the Saviour, who cares for our immediate as well as our ultimate needs
